YOUR OWN BRAND FINTECH
(DIGITAL OWN AGENCY)**

WITH 70+ BANKS & NBFCS

MEET OUR FOUNDER

Mr. Abhinash

I'm Abhinash, the founder of Finoza Capital. I have around 7 years of experience in the sales and finance sector. During this time, I've helped thousands of people start their own loan businesses. My goal is to empower every individual in India to launch their own financial business under their own brand name

About Finoza Capital

Finoza Capital began its journey in 2019, collaborating with offline partners and leading DSA networks across India. After several years of strong offline success, in 2024, we took a major digital leap by launching our own online portal – and since then, we have successfully disbursed loans worth over ₹180 crore nationwide. In the same year, we proudly introduced the Own Branding Program, aimed at empowering entrepreneurs to start their own loan companies under their own brand name. Today, more than 200 partners from different states and districts of India are growing their financial businesses with us – united under one mission: To make every Indian financially independent with their own brand.

ABOUT OWN BRANDING PROGRAM

Today, millions of people in India want to start a loan business, but most of them don't have their own brand, technology system, or bank tie-ups. Because of this, they work under someone else's company name and don't get the full benefit of their hard work. The solution to this problem is PayU Bharat's "Own Branding Program." This program was created so that every individual – whether new or already working in the finance field – can start their own loan business under their own name and identity

WHAT WILL YOU GET IN THIS PROGRAM?

CRM

With CRM, you can easily manage all your customers, agents, and loan applications in one place. It makes your business faster, more organized, and highly professional

WEBSITE

Your website builds your brand's online identity and allows customers to apply for loans directly. It increases trust and makes your business available 24x7.

APPLICATION

With the mobile app, your customers and agents can easily apply for loans from anywhere. It makes your business mobile-friendly and accessible 24x7

THE BIGGEST BENEFIT OF ENROLLING

The biggest benefit of enrolling in the Own Branding Program is that you can run your loan business across India under your own brand name. You can connect clients and agents from any state or city and build your network nationwide
